Seeking an internship (university agreement) from February to July 2027 · On-site, hybrid or remote

SUMMARY

4th-year Software Engineering student at Universidad Rey Juan Carlos (Móstoles) with international Erasmus experience at Ruhr-Universität Bochum (Germany) and a clear vocation for **Full Stack** development, **DevOps**, **Cloud** environments, **continuous integration and deployment (CI/CD)** and **automated testing**. Proactive, adaptable, focused on clean code and familiar with **Agile methodologies** and the **full software lifecycle**. Seeking a first internship or junior role to turn business problems into real tech solutions.

EDUCATION

Bachelor's Degree in Software Engineering — *Sept 2023 – Jul 2027 (expected)*
Universidad Rey Juan Carlos (URJC), Móstoles, Spain

Erasmus Programme — *Sept 2025 – Mar 2026*
Ruhr-Universität Bochum, Germany · semester in English and German; adapting to new international and technical challenges

Colegio Santa María la Blanca – ESO and Bachillerato — *Sept 2017 – Jun 2023*

PROJECTS

CadenceLab – Bachelor's Thesis (in progress) — *2026 – 2027*
NestJS (Node.js) · TypeScript · React · Vite · Tailwind CSS · Prisma ORM · MySQL · Firebase Auth · Gemini API · Vercel

- Multisport training-analysis web platform (cycling, running, swimming, triathlon and gym), deployed at cadencelab-app.vercel.app. Sessions are centralised through automatic Strava API synchronisation (OAuth and webhooks) and by importing .FIT, .GPX and .TCX files.
- Custom analysis engine in the backend: training load (TSS), fitness/fatigue/form model (CTL/ATL/TSB), heart-rate and power zones, power/pace curves, FTP and critical power estimation and overload detection; the Gemini API turns those metrics into natural-language feedback.
- REST API documented with Swagger/OpenAPI, Firebase authentication, MySQL managed with Prisma ORM, over 1,500 automated tests (Jest and Vitest) and CI/CD on Vercel with the backend running as a serverless function.

Stilnovo – Second-hand Marketplace (team project)
Java 21 · Spring Boot · React · TypeScript · Zustand · MySQL · Docker · GitHub Actions · Gemini AI

- Layered architecture with an OpenAPI-documented REST API, a React SPA and MySQL with Spring Data JPA; Docker containerisation, automated image publishing to Docker Hub with GitHub Actions and deployment on a university server.

BankingApp
Java · Maven · JUnit · Mockito · Selenium · JaCoCo · SonarCloud · Docker · GitHub Actions · Azure

- Software-quality project: static analysis with SonarCloud, unit testing with Mockito up to 100% coverage (JaCoCo) and system testing with Selenium. Four GitHub Actions workflows (commit, pull request, deployment and nightly tests) publish the Docker image and deploy to Azure, with semantic versioning and GitHub Flow.

FindBugs Modern Evolution
Java 21 · Static analysis · Modular architecture

- Re-engineering of FindBugs 3.0.1: migration to Java 21, modular architecture based on SOLID, AI-assisted vulnerability explanations and a dynamic web dashboard.

Other projects: Strava Dashboard (TypeScript, React) · Cryptography Algorithms (Python) · Linux Dev Automator (Bash)

TECHNICAL SKILLS

Programming languages: Java, Python, JavaScript, TypeScript, SQL, C, C++, Bash
Backend and databases: Spring Boot, NestJS, Node.js, Express, REST APIs (Swagger/OpenAPI), Spring Data JPA/Hibernate, Prisma ORM, MySQL, MongoDB, Firebase Authentication
Frontend: React, TypeScript, Vite, Tailwind CSS, Recharts, SPA, HTML5, CSS3
Cloud and DevOps: Docker, Docker Compose, GitHub Actions, CI/CD, Vercel, AWS (EC2, S3, Lambda), Azure, Kubernetes, Maven, Linux
Quality and testing: JUnit, Mockito, Selenium, JaCoCo, SonarQube/SonarCloud, Jest, Vitest, Postman
Methodologies and tools: Agile methodologies, Kanban, Git, GitHub, Power BI, SharePoint, Microsoft Office

WORK EXPERIENCE

Part-time jobs combined with my studies (WPP paused during my Erasmus exchange): customer service, incident resolution and teamwork.

WPP – Event Host — *Sept 2025 – Jun 2026 · Part-time*
Grupo Life Gourmet – Catering Waiter — *Sept 2024 – Jun 2025 · Part-time*
Domino's Pizza Spain – Delivery Driver and Dining Room Waiter — *Dec 2023 – Jun 2024 · Part-time*
Vilaplana Catering – Catering Waiter — *Jan 2023 – Dec 2023 · Part-time*

LANGUAGES AND ADDITIONAL INFORMATION

Languages: Spanish (native) · English C1 (LanguageCert) · German B1 (Goethe-Institut) · **Driving licence:** B
Volunteering: Scouts de Madrid – MSC (food distribution and companionship in elderly care homes)
Training: German course, Goethe-Institut (Austria) · AWS Summit Madrid 2026 · **Boating licence:** PER with sailing
