Seeking an internship (university agreement) starting February 2027 · On-site, hybrid or remote

SUMMARY

4th-year Software Engineering student at Universidad Rey Juan Carlos (Móstoles) with international Erasmus experience at Ruhr-Universität Bochum (Germany) and a clear vocation for **Full Stack** development, **DevOps**, **Cloud** environments, **continuous integration and deployment (CI/CD)**, **automated testing** and complex problem-solving. Proactive, adaptable, focused on clean code and familiar with **Agile methodologies**, good engineering practices and the **full software lifecycle**. Seeking a first internship or junior role to turn business problems into real tech solutions from day one.

EDUCATION

Bachelor's Degree in Software Engineering

Universidad Rey Juan Carlos (URJC), Móstoles, Spain

Sept 2023 – Jul 2027 (expected)

Erasmus Program

Ruhr-Universität Bochum, Germany · semester in English and German; adapting to new international and technical challenges

Sept 2025 – Mar 2026

Colegio Santa María la Blanca – ESO and Bachillerato

Sept 2017 – Jun 2023

PROJECTS

CadenceLab – Bachelor's Thesis (in progress)

2026 – 2027

Java, Spring Boot, React, TypeScript, Vite, MySQL, JPA/Hibernate, Gemini API

- Multisport training-analysis web platform (cycling, running, swimming, triathlon, gym) importing Strava exports and .FIT, .GPX and .TCX files.
- Metric visualization (weekly volume, heart-rate and power zones, power/pace curves, ATL/CTL model) and an AI coach that turns the data into natural-language feedback. Mobile-installable PWA frontend.

BankingApp (Java, Docker, CI/CD)

- Implementation of Continuous Integration and Continuous Deployment (CI/CD) pipelines with automated testing (JUnit, Mockito) and Docker-based service containerization.

Stilnovo – Web Application (Java, Spring Boot)

- Collaborative Full Stack development focused on clean architecture, Git/GitHub version control and team workflows.

Other projects (code and demos on my portfolio): FindBugs Modern Evolution (static analysis, Java 21) · Cryptography Algorithms (Caesar, Vigenère, AES-128 in Python) · Python Algorithms · Linux Dev Automator (Bash)

TECHNICAL SKILLS

Programming languages: Java, Python, JavaScript, TypeScript, SQL, C, C++

Frameworks and databases: Spring Boot, React, Node.js, Express, REST APIs, HTML5, CSS3, MySQL, MongoDB

Cloud and DevOps: Microsoft Azure, AWS (EC2, S3, Lambda), Docker, Kubernetes, CI/CD

Tools and QA: Git, GitHub, Linux (Ubuntu), Bash, Maven, Postman, JUnit, Mockito, Selenium, JaCoCo, SonarQube

Enterprise ecosystem: Agile methodologies, Kanban, SharePoint, Power BI, Microsoft Office

WORK EXPERIENCE

WPP – Event Host

Sept 2025 – Jun 2026 · Part-time

- Customer service and fast incident resolution in fast-paced environments (paused during my Erasmus exchange).

Grupo Life Gourmet – Catering Waiter

Sept 2024 – Jun 2025 · Part-time

- Customer service in fast-paced environments, teamwork and stress management.

Domino's Pizza Spain – Delivery Driver and Dining Room Waiter

Dec 2023 – Jun 2024 · Part-time

- Customer service and fast incident resolution; teamwork.

Vilaplana Catering – Catering Waiter

Jan 2023 – Dec 2023 · Part-time

- Customer service and teamwork.

LANGUAGES AND ADDITIONAL INFORMATION

Languages: Spanish (native) · English C1 (LanguageCert) · German B1 (Goethe-Institut)

Volunteering: Scouts de Madrid – MSC (food collection and distribution; companionship in elderly care homes)

Additional training: 1-month German summer course, Goethe-Institut (Obertauern, Austria) · AWS Summit Madrid 2026

Driving licence: Category B · **Boating licence:** Recreational Boat Skipper (PER) with sailing endorsement
